DETAILED ACTION

Claims 1,3, 7, 11, 16 and 17 are under consideration in this application.

Claims 2, 4-6, 8-10, 12-15 and 18-23 are withdrawn from consideration as being drawn to nonelected subject matter 37 CFR 1.142(b).

Election/Restrictions

Applicant's election without traverse of Group I and the compound of example 13 in the reply filed on July 21, 2008 is acknowledged.

This application has been examined to the extent readable on the elected compounds of wherein X is pyridyl (optionally substituted by non-heterocyclic groups), Y is aryl (optionally substituted by non-heterocyclic groups), Z is pyridyl (optionally substituted by non-heterocyclic groups), R¹ –R¹², A, B and W represents non-heterocyclic groups, A¹ is N and A² is CR¹² as set forth in claim 1, exclusively. All additional heterocycles and heteroaryls pertain to nonelected subject matter.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out

the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1, 3, 7, 11, 16 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cosford et al. (US 2005/0026963).

Cosford et al. generically embrace the instant compounds. Note the compounds of formula (I) wherein X is pyridyl, Y represents aryl, A¹ is N and A² is carbon.

It is believed that one having ordinary skill in the art would have found the claimed compounds *prima facie* obvious, since they are generically embraced by the disclosed formula; *In re Susi*, 440 F.2d 442, 169 USPQ 423 (CCPA 1971). See also *In re Malagari*, 499 F.2d 1297, 182 USPQ 549 (CCPA 1974); *In re Lemkin*, 332 F.2d 839, 141 USPQ 814 (CCPA 1964); *In re Rosicky*, 276 F.2d 656, 125 USPQ 341 (CCPA 1960). The requisite motivation for arriving at the claimed compounds stems from the fact that they fall within the generic class of compounds disclosed by Cosford et al. Accordingly, one having ordinary skill in the art would have been motivated to prepare any of the compounds embraced by the disclosed generic formula, including those encompassed by the claims.

It is believed well settled that a reference may be relied upon for all that it would have reasonably conveyed to one having ordinary skill in the art. *In re Fracalossi*, 681 F.2d 792, 215 USPQ 569 (CCPA 1982); *In re Lamberti*, 545 F.2d 747, 192 USPQ 278 (CCPA 1976); *In re Rinehart*, 531 F.2d 1048, 189 USPQ 143 (CCPA 1976); *In re Susi*, *supra*.
